

## Data Manual

The data is college football information from 2013. It was obtained from the following source:

<http://www.repole.com/sun4cast/stats/cfb20130907.xml>

The data is organized in a table consisting of 21 columns and 1515 rows. Each column represents a different category and each row represents a game. All games appear twice in the data set, once where one team is the offensive team and the other is defensive, and then vice versa. The categories are as follows:

#	Name	Type	Description
1	Date	String	Date of game
2	TeamName	String	Offensive team's name
3	ScoreOff	Int	Offensive final score
4	RushAttOff	int	Offensive rush attempts
5	RushYdsOff	Int	Offensive rushing yards
6	PassAttOff	Int	Offensive pass attempts
7	PassCompOff	Int	Offensive pass completions
8	PassYdsOff	Int	Offensive passing yards
9	PassIntOff	Int	Offensive pass interceptions
10	FumblesOff	Int	Offensive fumbles
11	Opponent	String	Defensive team's name
12	ScoreDef	Int	Defensive final score
13	RushAttDef	Int	Defensive rush attempts
14	RushYdsDef	Int	Defensive rushing yards
15	PassAttDef	Int	Defensive pass attempts
16	PassCompDef	Int	Defensive pass completions
17	PassYdsDef	Int	Defensive passing yards
18	PassIntDef	Int	Defensive pass interceptions
19	FumblesDef	Int	Defensive fumbles
20	Site	Char	H, V, N = Home, Visitor, Neutral
21	Line	Int	Betting line prediction (Score Difference)
